Energy-Saving Features

Recommended energy-saving !
**Default setting "ON"**

AUTO ENERGY-SAVING FUNCTION

The Washlet memorizes the time slot when the toilet is used less frequently and lowers the toilet seat temperature automatically to save energy.

※It takes approximately 10 days to determine the time slot where the toilet is used less frequently.

You can turn the feature ON/OFF at your discretion.

Press the 入/切 おまかせ

入/切 おまかせ | ON | To turn the auto energy-saving function "ON"

○ 入/切 おまかせ | OFF | To turn "OFF"
LED goes out.

ENERGY-SAVING TIMER

Once set, the toilet seat heater turns off everyday at that time to save energy. (The energy-saving time period can be set to 6 or 9 hours.)

Example **When using energy-saving function for 6 hours(1:00 - 7:00am).**

When the time (1:00 am) you want to start energy saving function is reached, press the 入/切 タイマー button repeatedly until the "6" LED lights up.
